

# Help Our Classrooms Breathe Easier

## For Our Kids. For Our Teachers. For Our Community.

We're launching a school-wide campaign to bring Austin Air Immunity Machines—medical-grade and military-grade air purifiers—into every classroom. These units are proven to reduce viruses, bacteria, allergens, and airborne chemicals, helping protect students and staff during cold and flu season and beyond. Cleaner air supports stronger immunity, better focus, fewer sick days, and a healthier learning environment for everyone.

## Join the Campaign to Bring Medical-Grade Air Purifiers to Every Room!

### TWO WAYS YOU CAN HELP

#### Option 1: Shop & Support with Our Promo Code

Support our school while protecting your own home or workplace.

##### How it works:

- Use our custom code: \_\_\_\_\_ at [AustinAir.com](http://AustinAir.com)
- With this code, the school earns:
  - 10% back from every Immunity or Bedroom Machine sold
  - 5% back from HealthMate, HealthMate Plus, and Junior units
- Payment options available!
- Perfect for families, teachers, alumni, or businesses looking to upgrade their air quality at home or work

**Bonus:** These units make thoughtful, practical holiday gifts!

#### Option 2: Sponsor a Classroom

Local businesses and families can make a lasting impact by sponsoring a purifier for one classroom.

##### How it works:

- Make a direct donation toward a classroom unit
- You'll receive:
  - A personalized thank-you card from students
  - Recognition in our school newsletter and social media
  - A classroom plaque: "This room breathes clean thanks to [Your Name or Business]."

Matching business sponsorships are encouraged and greatly appreciated!

### Make a Bigger Impact

Businesses that sponsor multiple classrooms will be featured in our press outreach and receive special recognition from the school.

## REWARD FOR SCHOOL PARTICIPATION

If we raise enough for 10 air purifiers, the school will earn a FREE Virtual Clean Air Assembly (\$400 value) featuring pro athletes and health experts who will inspire students with the connection between clean air, strong bodies, and clear minds.
